

FINANCIAL SERVICES

Seconds mean dollars in your business. Shaw Business Solutions understands that, and that's why we specialize in the reliable delivery of advanced data and Internet services for medium and large businesses in the U.S. and Canada. At a time of unprecedented pressures, Shaw Business Solutions is the partner who will help you find the ideal solution for your needs. We know that providing services to your clients across North America means connectivity requirements are integral to the success of your business, and that even millisecond delays in financial transactions can make the difference between making or losing money for those clients. It's our goal to provide you with technologies that will allow your business to be successful today, and to propel it into tomorrow.

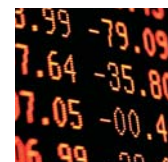

With reliable and effective methods to manage multiple locations through our suite of Ethernet and Private Line solutions, we can provide you with the infrastructure you need to maintain proper security and make regulatory compliance possible. We own and operate a fiber-optic network spanning over 625,000 kilometres, ensuring the highest reliability and transaction speed crucial to your industry. In addition, our Data Centre Connectivity options ensure that your network is available and operating at a premium level. Take a moment and have a more in-depth look at how Shaw Business Solutions is the solution for your business.

INTERNET GATEWAY

Shaw Business Solutions is the primary provider for nearly 2 million high-speed Internet customers. With numbers like that, more and more businesses are beginning to see first-hand why Shaw Business Solutions is Canada's premiere Tier-1 provider of high-speed Internet.

Our customers benefit from a fully diverse Internet backbone, offering low-latency trading execution and lightning-fast access to market data. Our almost 1,000 peering connections across North America, Europe and Asia combine to deliver the quickest and most reliable routes to get your traffic where it needs to go.

Performance, reliability and customer service are the cornerstones of our philosophy. We take pride in the quality of all our business services, and it shows each month as many of our nearly 2 million customers continue to tell us how our Internet offering is the best in the country.

DATA CONNECTIVITY

Private Line:

We provide point-to-point connectivity using SONET and DWDM based optical technology, carried over our carrier-class network so you can confidently transmit mission critical data, voice and video applications over one network. Bandwidth options include DS-1, DS-3, OC-3, OC-12, OC-48, and OC-192, as well as 1G, 2.5G and 10G dedicated Ethernet transport. Through a combination of our owned and operated facilities and our multiple interconnect relationships with other Tier-1 providers, we're able to transport data globally and provide you with secured bandwidth available only to you making it 100% private.

Transparent LAN/MPLS:

If your business operates from multiple locations, you'll need a proven network infrastructure to connect them. Shaw Business Solutions offers two Ethernet-based network solutions to interconnect local area networks regardless of their physical location. Both TLS and MPLS offer secure, private connectivity over our carrier-class network. MPLS brings the added benefit of Quality of Service (QoS) to support unrivalled delivery of your voice, data and Internet applications.

INTERNET AND DATA CONNECTIVITY FEATURES:

- Approaching 1,000 peering connections directly linking our network with networks around the world
- Fully diverse OC-192 Backbone
- Redundant secure transport to help you comply with regulations
- Superior connectivity enabling business continuity and disaster recovery
- Connected to all of the major North American, strategic European and Asian NAPs (Network Access Points)
- Experienced 24/7/365 dedicated support through our Network Operations Centre, providing expert technical assistance

Shaw Business Solutions puts the power and reliability of Shaw Communications to work for you. Direct ownership, control and management of network assets and traffic enables Shaw Business Solutions to maintain the highest quality of service standards. We provide Internet and data networking services that your business can depend on with complete confidence.
