

# TRANSPARENT LAN

At Shaw Business Solutions we're committed to providing you with exceptional service, extraordinary network performance, and an incomparable customer experience. That's why, with our superior Transparent LAN Ethernet service, you can connect all your offices, regardless of location. Transparent LAN is a flexible high-speed service that reduces the complexities associated with a Wide Area Network (WAN). You'll benefit from metropolitan, regional, and national SONET and MPLS connectivity, with route diversity and guaranteed uptime – features that are integral to you, and to the speed at which you do business.

## TRANSPARENT LAN FEATURES INCLUDE:

- › Uncontended and non-blocking Ethernet network
- › Ethernet handoff at native LAN speeds (10/100/1000 Mbps)
- › Access starting from 1.5 Mbps scaling to 1 Gbps in almost any increment
- › Protocol agnostic
- › VLAN support enabling multiple streams of information
- › Point-to-point and multipoint configurations
- › Service Level Agreements providing guaranteed uptime and packet delivery
